Dear Interested Party,

I just want to let you know that we have posted the 2005 Bitterroot National Forest Monitoring and Evaluation Report to our internet website. The report documents some of the monitoring accomplished throughout the year and evaluates whether we are accomplishing the goals set forth in the Land and Resource Management Plan. The Forest continued its well established monitoring program and research collaboration in 2005, but we were not funded to publish a report. Therefore, unlike past years it is slimmed down a bit, and we will not be printing paper copies.

The internet address is <http://www.fs.fed.us/r1/bitterroot/projects/> Then look under the "Reports" section.

We welcome any ideas or comments you have on this report or the overall management of the Forest. If you have questions on this report, please contact Pete Zimmerman at this office.

Sincerely,

DAVID T. BULL
Forest Supervisor
